

Believers Hymn Book App Instructions

Note: Your display may be a little different depending on platform and screen size.

The screenshot shows the app interface on an iPod. At the top, the status bar displays 'iPod', signal strength, '8:10 AM', and battery level. The app title 'Believers Hymn' is visible. Below the title is a search bar with a magnifying glass icon on the left and a 'C' icon on the right. A callout bubble points to the search bar with the text 'Enter phrase to search and press' and another bubble points to the search bar with 'Word/Phrase search (case/punctuation doesn't matter)'. Below the search bar are buttons for 'View All', 'Index' (with a dropdown arrow), and a '#' symbol next to a text input field containing '123'. Callouts explain 'Options / Settings' (gear icon), 'Clear search' (C icon), 'Show all hymns' (View All), 'Alphabetical index' (Index), and 'Fast number entry' (123). Below these are 'Previous' and 'Next' buttons, with a callout for 'Show/Hide number pad'. The main content area shows a hymn title 'Lamb of God! Thou now a' with a musical note icon. Callouts explain 'Click title to show/hide hymn lyrics' (question mark icon), 'Tune info & listen to tunes' (musical note icon), and 'Jump to search box' (Top / Search button). Below the hymn title are buttons for 'Tune & Meter Information', 'Buy the Physical Hymnbook', and 'Get the App'. Callouts explain 'Help' (question mark icon), 'Jump to top' (triangle icon), and 'Get information, hymnbook seller links and usage tips through buttons at bottom' (Get the App button). A note on the right states: 'Note: on some devices, music does not play if mute switch is on or vibrate is set to on.'
